

FUND STRUCTURE

The Accounting and Budgetary systems for the county are organized using funds and account groups. A fund is a separate accounting entity, with a self-balancing set of accounts. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. The various fund types that comprise the Cumberland County budget are:

- A. General Fund: This is the primary operating account of the county. The General Fund is used for the majority of current operating expenditures and is also used to account for all financial resources except those required to be accounted for in another fund. General Fund activities are financed mainly through property taxes, sales tax, fees, and federal and state revenues.

- B. Separate Funds:
 - 1. Special Revenue Funds
