## How to Protect Yourself, Your Family and Your Community

DO keep wild animals out of your home (Secure doors and windows, cap chimneys with screens, and close any openings in foundations, porches, basements and attics)

DO stay away from strays and other people's pets

DO confine your pet to your property

DO secure trash and store garbage and pet food in animal-proof containers

DO spay or neuter your pet

DO have your animals vaccinated

DO save your pets' vaccination certificates

DO treat all animal bites and scratches seriously

DO act on any attack or bite suffered by your pet.

DON'T leave uneaten containers of pet food outdoors

DON'T feed wild animals or leave food out for them

DON'T allow your pets to run loose

DON'T try to tame wild animals

DON'T try to capture any wild animal by yourself

DON'T try to vaccinate your own pets against rabies

DON'T destroy the brain of any suspect animal (if an animal must be destroyed, don't shoot it in the head. The brain must be intact and kept under refrigeration for laboratory examination for the presence of rabies).

DON'T accept the advice of unqualified persons with regards to rabies.
