

Water *is life*

Request one of these FREE PowerPoint presentations for your class. CD comes with a class set of age-level appropriate activity books to reinforce the "Water is Life" lesson for your students.

BEGINNER Grades K-1

Topics: Water in everyday life, states of water – solid, liquid, gas.

INTERMEDIATE Grades 2-3 Topics: Water cycle, groundwater, drinking water.

ADVANCED Grades 4-5 (May also be used with older students)

Topics: amount of water on Earth, watershed, stormwater runoff, and drought/floods.

(CANON ENVIROTHON continued)

The team's advisor received a camcorder. *The Sequoias* total score was 602. They had highest scores in Forestry (91), Soils (93) and Biodiversity (100). A team from Pennsylvania won the competition with a total score of 621.

On Tuesday, after five hours of testing, the teams were treated to a tour of the Biltmore House. They visited Cherokee and enjoyed a barn dance and bluegrass music on Wednesday before the hard work of preparation for oral presentations on Thursday.

Visit the Canon website to see more photos: www.envirothon.org

N.C.'s team, *The Sequoias*, deliver their oral presentation to a team of judges during the final five.

Below: Teams contemplate their answers on forestry and wildlife test questions.

WE'RE INTO

PUMPKINS!

**Kindergarten – 2nd Grade
Teachers:**

**Contact our office for
information about how you can
bring this
"Food, Land & People" lesson
to your classroom!**

Students conduct a hands-on investigation of pumpkins and visit a pumpkin farm via a PowerPoint presentation. A packet of handouts is provided for teacher to expand the lesson... and the seasonal fun!

- * This lesson is for Kindergarten, first grade and second grade classes.
- * Teacher/s are responsible for providing the pumpkins for this lesson.
- * Time: 1 hour
