Stray Dogs Run Away After Killing Rabid Raccoon in Linden

FAYETTEVILLE - This morning the State Public Health Lab in Raleigh reported positive results for rabies in a raccoon sent for testing from Cumberland County. The dead raccoon was picked up on Billy Joe Lane in Linden off of Honeybee and Colliers Chapel Roads at 10 p.m. on Friday, Sept. 28.

A citizen reported that two stray dogs were fighting with the raccoon and then ran off after killing the raccoon. Animal Control is warning citizens that two stray dogs have been exposed to rabies. Be advised to use caution and do not approach animals that you do not know. Animal Control does not have a description of the dogs and is sending officers to the area this afternoon to alert the public about the rabies case.

This is the 16th case of rabies in the county since Jan. 1.

All pet owners are urged to check the vaccination status of their pets. If pets are not vaccinated or are due for a booster shot, they should be taken to a local veterinarian for rabies vaccination immediately.

The first sign of rabies in animals is a change in behavior. Animals may become aggressive, attacking for no reason, or they may become very quiet. Wild animals can lose their fear of people and act tame. Rabid animals may walk in a circle, drag a leg, or fall over. Some cannot swallow so they are not able to eat or drink and often drool. Animals usually die within a week after first becoming ill.

Avoiding wild animals and keeping your distance from stray dogs and cats is the first step in preventing an animal bite. Any pet, which appears to have been in a fight while outside, should be handled very cautiously and seen by a veterinarian.

If you are bitten or scratched by an animal:

- Immediately wash the wound under running water for at least 10 minutes with lots of soap. Seek medical attention/advice.
- Call Animal Control at 321-6852 Monday-Friday 8 a.m. to 5:30 p.m. Call the Sheriff's Office at 323-1500 after 5 p.m., weekends and holidays.
- Go to the emergency room.

It is also important to vaccinate your pets for rabies and keep their shots current. Pet owners are reminded that all dogs and cats must be vaccinated against rabies, as required by state law. Pet owners are subject to a fine of \$100 for each unvaccinated dog or cat. Pets must be vaccinated when they reach the age of four months.
