REQUEST FOR TEMPORARY POWER

Date: _____ Permit Number: _____ Duration: _____

Address of Structure: _____ Power Company: _____

Reason for request & portion of the building to be energized: _____

General Contractor: _____ Signature: _____

Mechanical Contractor: _____ Signature: _____

Plumbing Contractor: _____ Signature: _____

Above signatures serve as required acknowledgement that all contractors have been notified that the structure is energized

Electrical contractor is responsible for all energized panels and compliance with section 10.8 of the North Carolina Electrical Code. Signage required at entryways and panel covers to notify all workers that building is energized.

Provisions of North Carolina Electrical Code for Temporary Power:

1. The service wiring and equipment, including the meter socket enclosure, shall be installed, the service wiring terminated, and the service equipment covers installed
2. The portions of the electrical system that are to be energized shall be complete and physically protected
3. The grounding electrode system shall be complete
4. The grounding and the grounded conductors shall be terminated in the service equipment
5. At least one receptacle outlet with ground fault circuit interrupter protection for personnel shall be installed with the circuit wiring terminated
6. The applicable requirements of the North Carolina Electrical Code apply

I understand that in no case shall any portion of the permanent wiring be energized until the portions have been inspected and approved by an electrical Code Enforcement Official. Failure to comply with section 10.8 of the North Carolina Electrical Code, current edition may result in disconnection of power and/or revocation of permit. Furthermore, I understand that it is my responsibility to maintain the energized electrical system or that portion of the building containing the energized electrical system in a secured and locked manner or under constant supervision to exclude unauthorized personnel.
